

Summer 2011 Share Projection

This is our working projection for the summer share and what we base our plantings on. The weeks are listed across the top and crops are listed to the left. We've made an estimate of the value of each item and there is a number in the box that corresponds to the week we hope to give out the item and the number of "units" of that item we plan to give that week. The actual summer share will depend on weather, and how well each planting works, as well as when things actually mature, not when we want them to mature. This should at least give an idea of what types of vegetables we're growing, and roughly the size of a share each week.

Summer is the start of peak season and the shares will include a wide variety of vegetables over the course of the season, and more vegetables than any other season.

type	crop	notes	Qty Unit	price/ Unit	Jun		Jul				Aug				Sept			value	
					20 1	27 2	04 3	11 4	18 5	25 6	01 7	08 8	15 9	22 10	29 11	05 12	12 13		19 14
